LOAD—STEEL HUB

(2)2.9" x 3.9" polyurethane

STEER ARC 210°

WHEELS

Standard non-marring polyurethane over cast iron steer wheels load wheels. Phenolic entry and exit roller and tapered fork tip eases transition in and out of pallets with bottom boards.

ERGONOMIC CONTROL

Three position hydraulic lever: Lifting, neutral, and lowering. Allows for safe controlled load placement. Handle return spring keeps operator handle to vertical position.

HYDRAULICS

Galvanized housing with sturdy construction. Precision welded pump assembly is fully sealed and features hardened chrome lift cylinder, overload bypass valve and uniquely designed packing seals. Self lubricating pushing at all pivot points helps minimize wear and improve efficiency.

AVAILABLE FORK DIMENSIONS

- 27" wide x 48" long STD
- Fork widths- 20.5"
- Fork lengths - 36" / 42"

WARRANTY

- 6-months on frame and pump
- 90-Days on wheels, axles, bearings and bushings

ADJUSTABLE

Tubular push rods for reliable performance and allows field adjustment when forks become misaligned, facilitating maximum serviceability.

FRAME

Ridged reinforced steel C-channel construction helps resist twisting during heavy loading or misaligned load. Durable powder coat paint.
