## Lift Stik Accessories

All models are available with either load platform or skid forks. For other options and accessories, please consult Presto.

## Designed with Features for Comfort, Productivity, and Safety

Oversized ergonomic "sponge-grip" handle provides operator comfort and a variety of grip positions.

Pushbutton remote control is mounted conveniently on the handle, and has a telephone style cord for remote operation. Wheels feature brake locks for safety while loading or unloading, steering lock for straightline travel, and protective toe guards.

High visibility battery status indicator shows power information at a glance. Onboard charger provides quick battery recharging.
