

# PowerStak

Ergonomic handle with comfort grip controls and switch redundancy for left or right hand operation.

Auto reversing "belly bump" switch protects against operator accidents while working in tight quarters.

Narrow mast and offset design provide workers a clear view with no "blind spots".

## PowerStak Series

Model Number	Load Capacity	Raised Height	Lowered Height	Dimensions H / W / L	Base & Legs I.D. / O.D.	Wheel Dia. Front/Rear	Shipping Weight

### Features

The Presto PowerStak™ is a high performance, fully powered stacker that offers significant performance advantages over manual stackers without a significant price premium. The PowerStak provides instant flexibility and versatility. Whether used as a dedicated stacker, or as a combination stacker/work positioner, or as a transporter, it will provide a significant improvement in worker productivity. Its abundance of ergonomic features make it the safest, easiest to operate powered stacker available. Its sleek, stylish design, low overall weight, and quiet operation allow the PowerStak to fit nicely into a wide variety of work environments including:

- Warehouses
- Loading docks
- Light assembly work cells
- Retail sales floors

Four PowerStak models are available to satisfy just about any requirement including servicing racks up to 10 feet high. Fork Over models can be used with open bottom pallets or skids and adjustable straddle units are available for use with any pallet style, even closed bottom.

- Smooth polyurethane drive wheel is fully shrouded to protect operators' feet
- Battery status indicator and charger controls
- Straddle Design
- Fork Over Design
- Straddle legs feature simple user adjustability

#### Options for PowerStak:

- Load Backrest
- Forged Steel Forks
- Rubber Drive Wheel
- Marine Battery Upgrade (Battery not available for Model PPS2200-150AS)

Adjustable fork carriage allows forks to be quickly repositioned to best accommodate loads (straddle only).
